

SO YOU WANT TO PERFORM D.O.T. DRUG TESTING? *(Alcohol version also available)*

AN INDEPENDENT STUDY PROGRAM

by Workplace Human Relations, A Division of FGC.

“So You Want to Perform DOT Drug Testing?” independent study program is instruction that specifically meets and follows the *U.S. Guidelines for Specimen Collection* and 40 CFR Part 40. You may successfully accomplish the **training requirements of the DOT** in the convenience of your office or home.

DCs & CAs may complete the training requirements of the Department of Transportation (DOT) as a self-study course. You will learn comprehensive training information covering Collection Site Security, Collection Personnel, Collection Site Requirements, Collection Procedures, Flaws, Fatal Flaws and Corrections, Requirements for the Collector - and ALL the info you need for DOT Drug Testing by Specimen Collection. (ALL DOT drug tests are currently done by urine collection).

WHAT YOU NEED

This is perfect for learning at home or the office, saving you the time and expense of having to travel for training, and the luxury of studying at your own pace. Telephone support is also available during normal business hours M-F, of course, at no charge.

When you have completed the training portion, you will be required to also complete a Demonstration of Proficiency (5 consecutive error-free mock collects as defined by the DOT). **Contact your local emergency room or hospital to inquire about a “Qualified Person” who can proctor the Demonstration of Proficiency.** The Qualified Person is one that has:

- 1 - Complete the Train-th-Trainer Course for DOT drug testing
- 2 - Conducted DOT drug testing regularly for one year, or
- 3 - Has conducted training for DOT drug testing for one year

You will have up to 30 days after having completed the training (this Independent Study program) to complete the Demonstration of Proficiency.

(An Independent Study course is also available for DOT Screening Test Technician training. Please inquire.)

This program prepares you as a DOT Specimen Collector for drug testing, but you will be able to also perform non-DOT testing – this opens the door to working with any type of employer. This training follows and meets the DOT’s guidelines of 49 CFR Part 40 for performing DOT Urine Specimen Collections for drug testing. Provide just one DOT service and see how the opportunity opens up for providing more DOT services for companies – it’s ‘Monday-Morning-put-it-to-practice’ - an immediately marketable service. 12 million American workers are regulated by the DOT, meaning employers need your services. It’s not work comp, it’s not managed care – and the employer pays for DOT services. You will learn the DOT screening requirements of the types of collections, CCF and other required documentation, site set-up and security, donor management, collection preparation and procedures, specimen integrity, disbursing to lab, MRO service, tampering, “what-if” situations, donor modesty and privacy, and everything the DOT requires you to know and demonstrate for official recognition as a DOT Specimen Collector. Included is an overview of the impact substance misuse has among America’s workforce. CAs, DC staff persons, and other Professionals should buy this program. Great for individual or small group use.

[\(DOT Alcohol Screening Independent Study is also available; please inquire.\)](#)

Prepayment only by check, VISA or MasterCard.

Payable to: IACOHC

First Set: \$139 (MN + 6.5% sales tax.)

Additional Sets: \$99 each

Add **\$10.50** for S&H, please.

One set is assigned to one person. No two persons may use the same manual. A unique serial number is issued to each user. This serial number is used to record all self-study, post-test submissions, and for the distribution of supplies for the Demonstration of Proficiency.
